

Foundations of Project Management

Professional Development Training from State of Montana IT PMO and ESI International

Get a solid understanding of project management methods with this comprehensive introductory course. Gain practical experience in proven project management techniques and discover a wealth of valuable, flexible tools that you can use immediately to ensure the success of any project in any type of organization. *Foundations of Project Management* gives you the foundation, techniques and tools to manage each stage of the project life cycle, work within organizational and cost constraints, set goals tied directly to stakeholder needs, get the most from your project management team, incorporates State of Montana tools and templates as well as utilize state-of-the-art project management tools to get the work done on time and within budget.

Covering the entire project life cycle, this course is built around best practices currently used in today's fast-paced business environment. The latest insights from the PMBOK® Guide, which incorporates information critical to project success, are also highlighted.
